San Francisco, CA 94108

Projects

Assigned!—iOS App

MVVM, Core Data

Implemented top persistent libraries to create a single utility: a task manager combined with a calendar interface illustrating when to complete each task, when they're due and which require more time to complete

Ongoing project

iLog—iOS App

Core Data, UIKit, Dark Sky API

Sketched, designed, prototyped, and built this all-in-one record keeping app which includes; a journal, timers, storage locations, inventory counts, map waypoints, and metadata of a person

Ongoing project

Circuit Studio—iOS App

Moya, MVVM

Designed, and developed a circuit diagram tool geared towards intro electrical hobbyists

Worked collaboratively in a team of five; 2 backend web, 1 frontend web, and 1 other iOS developer

Ongoing project

Kids Self-Evaluate—iOS App

In-App Purchases

From the ground up, designed, tested, developed and shipped an entire app in under two months.

Designed storyboards of each screen as well as the AppStore metadata like screenshots

Shipped to the AppStore!

Experience

Club President

SRJC Computer Science Club

Facilitate weekly meetings and created each agenda. I've helped project managers delegate project tasks to each team.

Manage tools and services used daily such as the git flow and issue's board. Also, maintaining connections to other clubs and school resources

Customer Service Manager

Walmart

Team delegation of hourly tasks. Customer upkeep of the entire store. Onboard mentoring of new team members and other customer service managers

SKILLS

iOS

Core Data, UIKit, Protocol Oriented Programming

Programming Lang.

Swift, Python, C++, Objective-C, HTML & CSS, JavaScript

Software

Sketch, Xcode, Adobe Photoshop, Illustrator, InDesign

Spoken languages

English, Spanish

EDUCATION

Product College

Make School

Computer Science Foundations, full stack iOS, Coaching and mentorship

Associates Degree

Santa Rosa Junior College

Degree in Progress:
Computer Science Degree

INTERESTS/HOBBIES

Sketch models of city life like skyscrapers and transportation

Play lots of simulation and real-time strategy games

Intrigued in watching ant colonies building their empire!
